

New Horizons in Polarography

16.-20.5.1977

Liblice

Programme:

1. Memorial session

W.Kemula (Warsaw), G.Semerano (Bologna), G.Sartori (Rome), E.T.Verdier (Montpellier), M.Kalousek (Prague)

2. Present state of polarography and some further prospects

J.Kůta (Prague), A.A.Vlček (Prague), chairman L.Gierst (Brussels)

3. Development of the electrochemical instrumentation related to polarography

R.Kalvoda (Prague), chairman R.G.Clem (Berkeley)

4. Potentialities and future trends of polarography in trace analysis and trace chemistry

H.W.Nürnberg (Jülich), chairman W.Kemula (Warsaw)

5. A.c. techniques

L.Pospíšil (Prague), chairman Z.Galus (Warsaw)

6. Polarography in organic chemistry

J.Stradins (Riga), chairman J.Volke (Prague)
