

# **New Horizons in Polarography**

**16.-20.5.1977**

**Liblice**

*Programme:*

## **1. Memorial session**

W.Kemula (Warsaw), G.Semerano (Bologna), G.Sartori (Rome), E.T.Verdier (Montpellier), M.Kalousek (Prague)

## **2. Present state of polarography and some further prospects**

J.Kůta (Prague), A.A.Vlček (Prague), chairman L.Gierst (Brussels)

## **3. Development of the electrochemical instrumentation related to polarography**

R.Kalvoda (Prague), chairman R.G.Clem (Berkeley)

## **4. Potentialities and future trends of polarography in trace analysis and trace chemistry**

H.W.Nürnberg (Jülich), chairman W.Kemula (Warsaw)

## **5. A.c. techniques**

L.Pospíšil (Prague), chairman Z.Galus (Warsaw)

## **6. Polarography in organic chemistry**

J.Stradins (Riga), chairman J.Volke (Prague)
